The screenshot displays the IBM Cognos Analytics interface. The browser tabs at the top include 'My IBM', 'AirStats-Data Explor', '(2) WhatsApp', 'Google Meet', and two 'IBM' tabs. The address bar shows a URL from 'us1.ca.analytics.ibm.com'. The main interface has a dark header with 'IBM Cognos Analytics with Watson' and 'AirStats-Data Explor'. Below the header is a toolbar with icons for various actions like 'Create', 'Summary', 'Related', 'Compare', and 'Analytics'. The main content area is divided into three sections: 'Cards' on the left, a large central visualization, and 'Details' on the right. The 'Cards' section shows a card for 'Continent Name' with a large number '7' and a smaller card below it showing '247' and 'Data relationships'. The central visualization is a large card titled 'Continent Name' with a very large number '7' and the text 'Continent Name' below it. The 'Details' section on the right states 'The total number of results for Continent Name is 247.' The bottom of the screen shows a Windows taskbar with various application icons and a system clock showing 21:46.
